Formaldehyde Absorbent Neutralizer Pad

A Unique Foundation for Specimen Dissection

Absorbs and Neutralizes Formalin Destroying Its Harmful Vapors While Dissecting Tissue

Designed to be Dense Enough to Provide Exceptional Knife Suppression while Dissecting Tissue Yet Soft Enough to Reduce Wear on Dissecting Blades

Additional Applications for Reducing Formalin Vapors....

- ▶ Specimen Transport Carts
- ▶ Specimen/ Biopsy Cassette Transfers
- ▶ Surgery
- ▶ Labor & Delivery
- ▶ Specimen Transport Boxes & Coolers
- ▶ Specimen Storage Areas
- ▶ Autopsy
- ▶ GI Lab & Endoscopy

FAN PAD G.L.™ was designed to facilitate the reduction of formaldehyde vapors by absorbing and neutralizing formaldehyde, glutaraldehyde and other aldehydes. FAN Pad provides excellent vapor control during gross examination, dissecting, transporting, or transferring formalin fixed tissue. FAN Pads are also used for vapor control in storage of formalin, formalin fixed tissue containers and for small formalin spills. Once the formalin solution is absorbed, the FAN PAD GL™ will convert formaldehyde and other aldehydes to a non-hazardous polymer, eliminating the source of harmful vapors making the work area a lot safer.

Product # FAN-0811 Packaged: 25 ea. 8"x 11" pads/ pack; 4 packs/ case (100 pads/case)
Each 8"x 11" F.A.N. Pad-GL™ ULTRA-Grossing Pad will Absorb & Neutralize up to 100ml of Formalin

Product # FAN-1115 Packaged: 25 ea. 11"x 15" pads/ pack; 4 packs/ case (100 pads/ case)
Each 11"x 15" F.A.N. Pad-GL™ ULTRA-Grossing Pad will Absorb & Neutralize up to 200ml of Formalin

Product # FAN-1520 Packaged: 25 ea. 15"x 20" pads/ pack; 4 packs/ case (100 pads/ case)
Each 15"x 20" F.A.N. Pad-GL™ ULTRA-Grossing Pad will Absorb & Neutralize up to 250ml of Formalin

Also Check out; Polyform-F, Formaldehyde Spill Control Granules,
Emergency Spill Response Kits, small chemical spills
Form-Zero™, Fast disposal of waste formalin

Formalex™ Green, safe disposal of waste formalin
Safe Cube Dispenser, Safe Formalin Dispensing
